## FOUNDER SALE

# FOUNDER SALE PALLADIUM OFFER

**INDULGE**

## PALLADIUM 101

Palladium is the premium currency in IGW. It allows you to speed up your progress, and will be an integral part of our in-game player-driven economy.

**NORMAL PRICE : \$1 = 10 PALLADIUM**

**FOUNDER SALE OFFER : \$1 = 15 PALLADIUM**

**1 PALLADIUM = 30 MINUTES OF BUILD TIME**

## FOUNDERS GET 200 FREE PALL!

- We know not everyone can afford to coin - that is why our special founder offer provides all founders with 200 Palladium for free. As long as they spend at least \$1 on the founder sale.
- You can not trade this Palladium, if you buy 100x \$1 packs with 100 alts... Doing that will get you 100 bronze founder avatars, which should come out as a good deal in the long run, if you plan on re-selling them.

**200 BONUS PALLADIUM OFFER ENDED WITH IGW LAUNCH**

# REWARD CATEGORIES

## TRADABLE / NON-TRADABLE ITEMS

One of the main points of the founder sale will be the distribution of rares and other tradable items, that will flow through the IGW's economy. There were plans for trade implementation before IGW got shut-down, but they were never fully implemented.

We plan on hooking up those systems into the game as soon as we release the HD version of the game, around 1 year after the initial release.

## DISCONTINUED ITEMS

During the sale we will offer a lot of items that will no longer be available after the sale ends. This will provide you and other founders with items of immense value. Think of them as numismatics, or virtual currency of sorts that will never be subject to inflation.

## F-SALE EXCLUSIVE / NOT F.S. EXCLUSIVE

Most of the items available during the sale will be founder sale exclusive. There are a few items that are not exclusive - such as the soundtrack. Such items are marked with a red color in the reward table below.

## DEV REWARDS

During the founder sale, starting at the \$350 tier, you will gain the option to shape the universe of IGW. Rewards include option to name actual Imperium Raid Fleets, blueprints, hulls, resources, relays and even sectors! Rewards also include an option to play as a world boss, or even become a mini-boss fleet in the game.

## DOWNLOADABLE

Items downloadable during or after the Founder Sale.

This includes the soundtrack, lore bible and the original art book.

## REWARD DELIVERY DATE

Most items (except for Palladium) need to be implemented in the game and will take at least a year to deliver... Don't confuse it with IGW's release, which is set to the 30th of November! ;-)

## MISCELLANEOUS

Things that don't really fall into any category, such as the travel to our launch party, and the tour of Vavel Office and being our BFF for 2 days. ;-)

DUE TO LATE LAUNCH ALL REWARD DATES ARE PUSHED BACK BY AT LEAST 5 MONTHS

A vibrant, futuristic city skyline is set against a backdrop of a large, glowing orange moon and a setting sun. The city features numerous tall, uniquely shaped skyscrapers and a network of elevated roads. Several small, colorful flying vehicles are scattered across the sky. In the foreground, a large, white, cylindrical structure with a circular platform at its base dominates the center. The overall atmosphere is one of a bustling, advanced civilization.
